Thanks Audrey, why doesn't the form contain a code for federally funded clean-ups?

Dan - Here is the letter I was referring to that I emailed last Friday. Let me know if this helps.

Gary – I'll try to get more information on how to use the form. I am under the impression that the form provides the exempt codes to use on the waste manifest but I don't know if the form itself needs to be filled out or submitted.

Gary,

Never got the letter referred to by Audrey, that may be sufficient to waive fee.

Subject: RE: CES Environmental Services Site Exemption of TCEQ's Waste Management Fee

Audrey,

As per your request for the exempt code, the only ones that we came up with are those that are located on the second page of the Waste Management Fees reports. Listed below is the form number you can retrieve the from the t-net public forms site.

**TCEQ-20543-exempt (Form): Waste Management Fee Monthly Summary and Payment Report Exempt Commercial Hazardous Waste (Excel)**

**Exempt Code**

**A – Waste generated in a removal or remedial action accomplished through expenditure of State of Texas public funds.**

**B – Waste is stored within the time periods allowed by and in accordance with the provisions of 30 Texas Administrative Code § 335.69**

**C – Waste treated, processed, or disposed which is permitted under the Water Code, Chapter 26 of the Texas Water**

**Code or the federal National Pollutant Discharge Elimination System of discharges into surface waters of the state  
D – Other reconciling items (please attach an explanation).**

**I hope this helps. I will see if I can find anything else out about this, but this is all I have for now.**

**Thanks,**

**Hi Elvi and Susie,**

**Attached is a letter I sent today for the CES Environmental Services Site regarding the exemption of TCEQ's waste management fee for the removal action currently taking place at the site. Please contact me with any questions. We may also need the code to include on the waste manifest regarding this exemption, which I believe Susie is looking into.**
